

## Mannatech Optimal Skin Care **COMING SOON TO SOUTH AFRICA!**

Quality of life means not only feeling great, but looking great, too. Mannatech offers everyone the opportunity for better skin hydration, and more youthful looking skin.

Your skin is the largest organ of your body. The aging of skin is associated with decreased hydration, which may lead to lines and wrinkles.

Every day, your skin is exposed to pollutants, chemicals, toxins and UV rays from the sun. These challenges make it difficult to keep your skin looking healthy and beautiful. A massive skin care industry has evolved to address the demand for healthy looking skin, but not just any product will do. Educated consumers are demanding quality skin care products that utilize the best hydrating ingredients while eliminating some of the unwanted chemicals.

### **Mannatech Optimal Skin Care System™**

The Mannatech Optimal Skin Care System™ products are designed to nourish, hydrate and promote more youthful and radiant-looking skin. It is a proprietary, water-based\* system that includes natural ingredients to offer moisture and improved hydration. It is formulated without paraben preservatives.\*\* One consumer study showed an 80% improvement in skin hydration after just one use, and 100% improvement after 8 weeks of use.\*\*\*

While many skin care lines offer complex products requiring lots of decision-making, the Mannatech Optimal Skin Care System™ line is designed to help women and men have more beautiful, healthy looking skin in five quick and easy steps.

- Step 1: CLEANSE with Optimal Cleansing Oil and Optimal Face Cleansing Cream
- Step 2: BALANCE with Optimal Skin Lotion
- Step 3: NOURISH with Optimal Skin Serum
- Step 4: REPLENISH with Optimal Skin Cream and Optimal Eye Cream
- **Step 5: (Optional) SOOTHE** with Optimal After Shave Milk

Optimal Health products to feel great on the inside, and the Mannatech Optimal Skin Care System™ products to look great on the outside!
